

Anfal Hidayat

IoT & Automation Engineer | Industrial Systems | Web Integration | SPBU & EV Infrastructure

+62 851-5793-8871 anfalblank@gmail.com Jakarta anfalhidayat.web.id

ABOUT ME

I am an engineer focused on bridging physical systems with modern digital technologies, particularly in IoT, industrial automation, and web-based monitoring systems. With hands-on experience in fuel station infrastructure (SPBU), EV charging systems (SPKLU), and POS integrations, I have been involved in designing, deploying, and maintaining systems that operate at scale across multiple locations.

EDUCATION

2012 - 2014 **SMA NEGERI 3 MAKASSAR**

Senior High School

- Completed general education with a focus on science and analytical thinking
- Built strong foundation in problem-solving and logical reasoning

2014 - 2017 **TELKOM UNIVERSITY, BANDUNG**

Applied Science Studies

- Studied fundamentals of programming, networking, and database systems
- Hands-on experience in system integration and applied technology solutions
- Built foundational knowledge in bridging hardware and software systems
- Exposure to real-world implementation of IT systems in industrial contexts

WORK EXPERIENCE

2020 - 2023 **IOT & AUTOMATION ENGINEER**

SMART INDUSTRIES REFF (REMOTE)

- Designed and implemented IoT monitoring systems for fuel stations
- Integrated embedded systems with cloud-based dashboards
- Developed automation solutions for industrial efficiency

2023 - Present **PROJECT & OPERATIONS**

PT. MANGGALA UTAMA INDONESIA

- Manage end-to-end project lifecycle across multiple locations
- Oversee daily operational workflows and deployment processes
- Ensure system performance, maintenance, and continuous support

2018 - Present **IT SUPPORT ENGINEER**

PT. USAHA JAYAMAS BHAKTI

- Installed and configured POS Pinsyst systems
- Provided technical support for SPBU and SPKLU operations
- Troubleshooting hardware and system integration issues

SKILLS

- IoT Development
- Design Thinking
- Wireframe Creation
- Problem-Solving
- Computer Literacy
- Front End Coding
- Project Management Tools
- Strong Communication
- Leadership
